

LazyTopper

Transforming Board Prep From
a Chore Into a Habit.

Board exam preparation is a universal challenge.

Students face a fragmented and stressful experience: sifting through dense textbooks, guessing which topics are important, and struggling to stay motivated. The process is inefficient, overwhelming, and rarely adapts to an individual's learning style or pace.

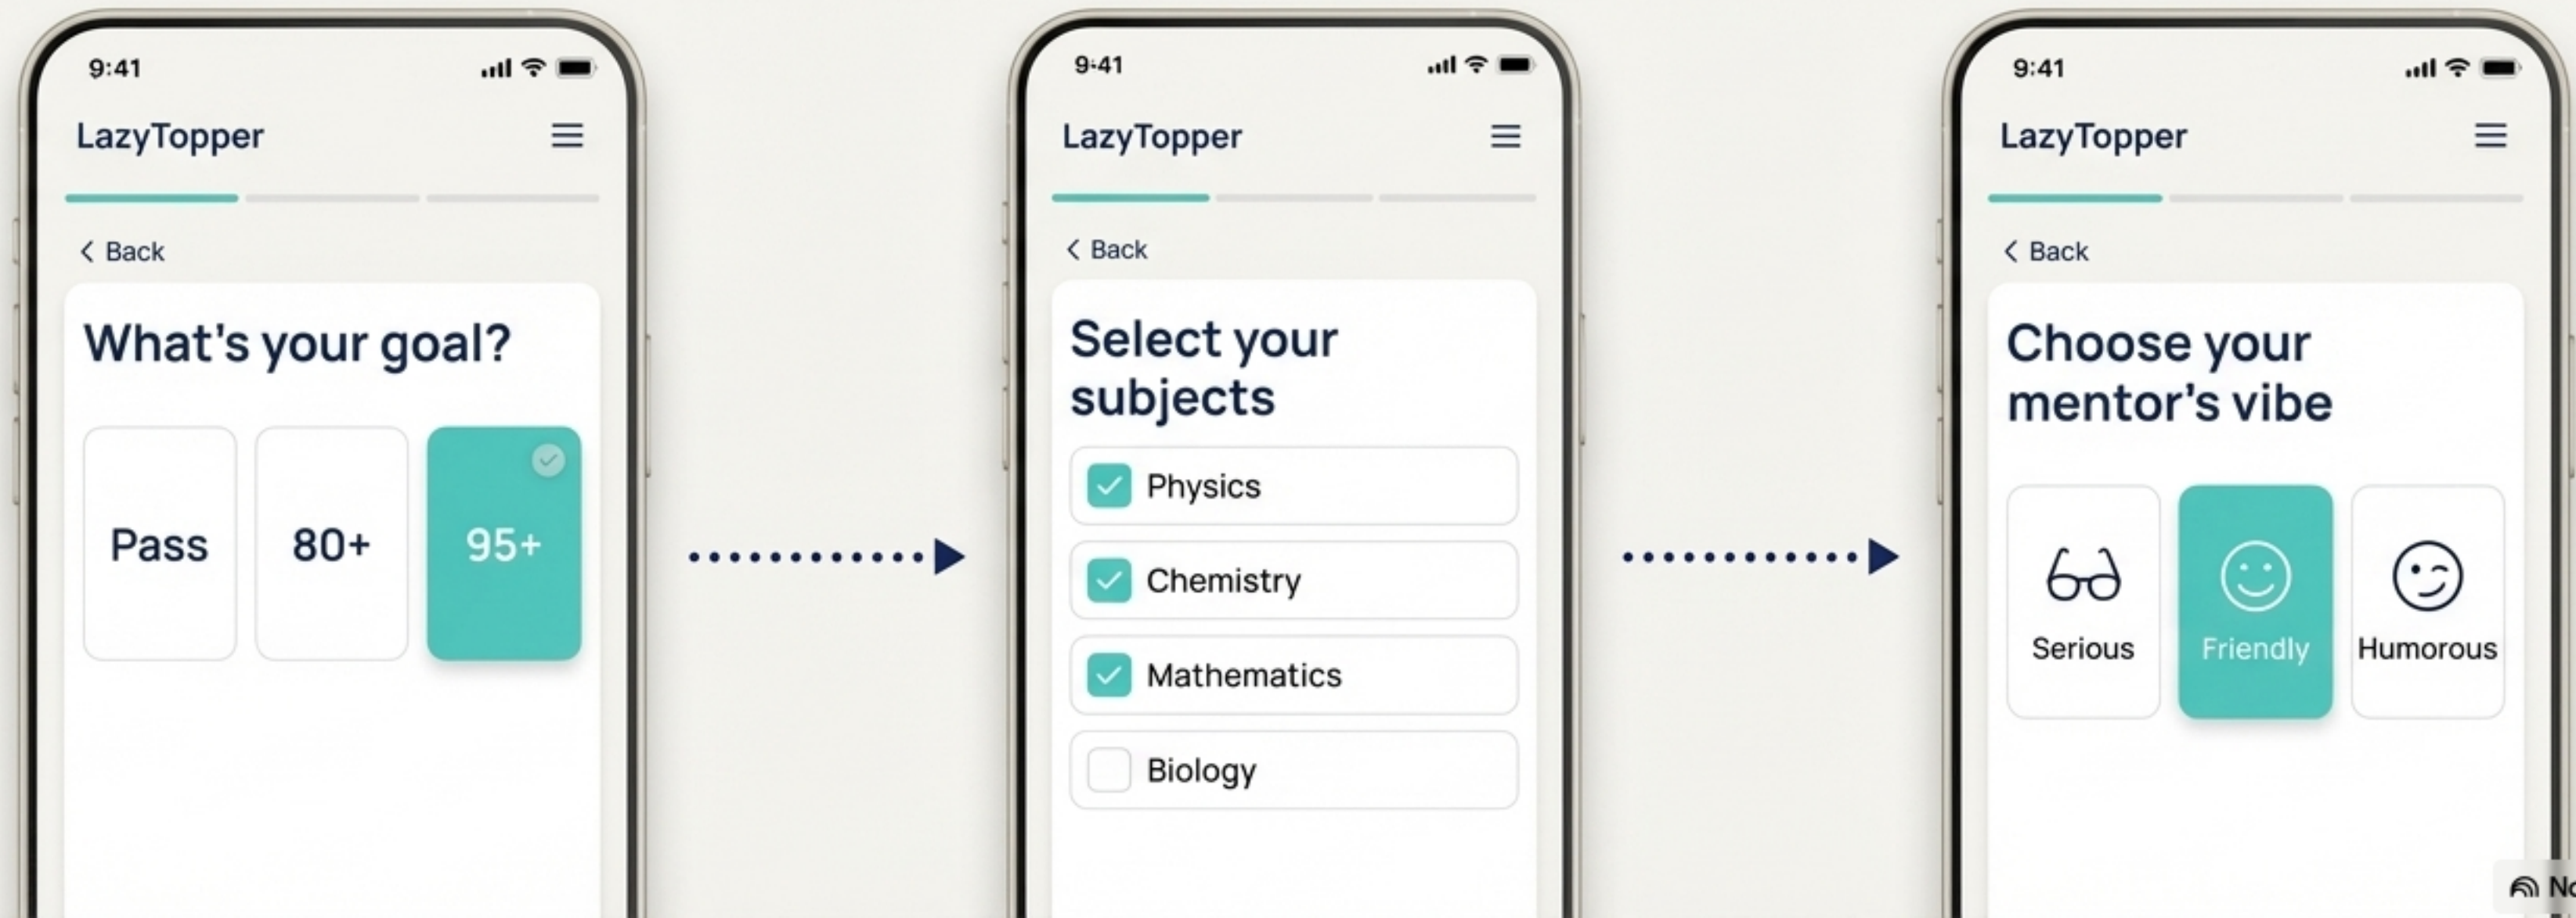

Our solution is an intelligent, unified learning experience.

LazyTopper is an AI-powered platform for CBSE Class 10 & 12 students. Inspired by the personalized, habit-forming nature of services like Spotify and Duolingo, it integrates:

- ✓ Personalised Study Sessions
- ✓ Deep, Actionable Analytics
- ✓ Conversational AI Mentorship

The journey begins with a profile built for success.

The student first sets their core parameters: board, subjects, and exam date. They then define their personal goal (e.g., `95+`) and choose a communication style (serious, friendly, or humorous) for their AI Mentor. This initial setup powers the entire adaptive learning engine.

The Daily Focus Mix makes studying an effortless habit.

Each day, the dashboard presents a curated playlist based on exam weightage, topic trends, and the student's weak areas. The mix automatically assembles:

-  1 High-Weightage Concept Video
-  3 Must-Crack Questions
-  1 Revision Card

Students can simply hit 'Play' to start a seamless session.

Students know exactly where to focus with TopicHub & Trends.

The **Topic Trends** section ranks every topic by its **Match %**—a proprietary score computed from board weightage, exam frequency, and the student's mastery gap. This surfaces the hottest, most impactful topics.

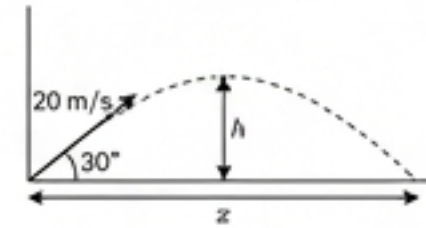

For deep dives, **TopicHub** acts as a rich encyclopedia with core ideas, common mistakes, exam patterns, and 95+ tips.

The HPQ Engine provides limitless, high-impact practice.

Our **Highly Probable Questions (HPQ) Engine** curates the most critical questions from past papers and expert predictions. To move beyond simple archives, we also provide **AI-generated question variants**, ensuring students can master the underlying concepts, not just memorize old answers.

Practice modes include speed practice, exam mix, and full-length mocks.

Highly Probable Question

Equation:

$$y = m/x + b$$

$$q = \frac{v_1 - v_2}{2}$$

Where

$$a = m/s + 18 = 30^\circ$$

$$z = -9.8 \text{ m/s}^2$$

v_0 = projectile motion

h_0 = mamention

v_0 = projectile motion ($g = 9.8 \text{ m/s}^2$)

A projectile is fired from the ground with an initial velocity of 20 m/s at an angle of 30° to the horizontal. Calculate the maximum height reached by the projectile ($g = 9.8 \text{ m/s}^2$).

 Generate a similar question

A. 5.1 m

B. 10.2 m

C. 20.4 m

D. 40.8 m

Powered by AI to deepen understanding

An expert AI Mentor for every learning moment.

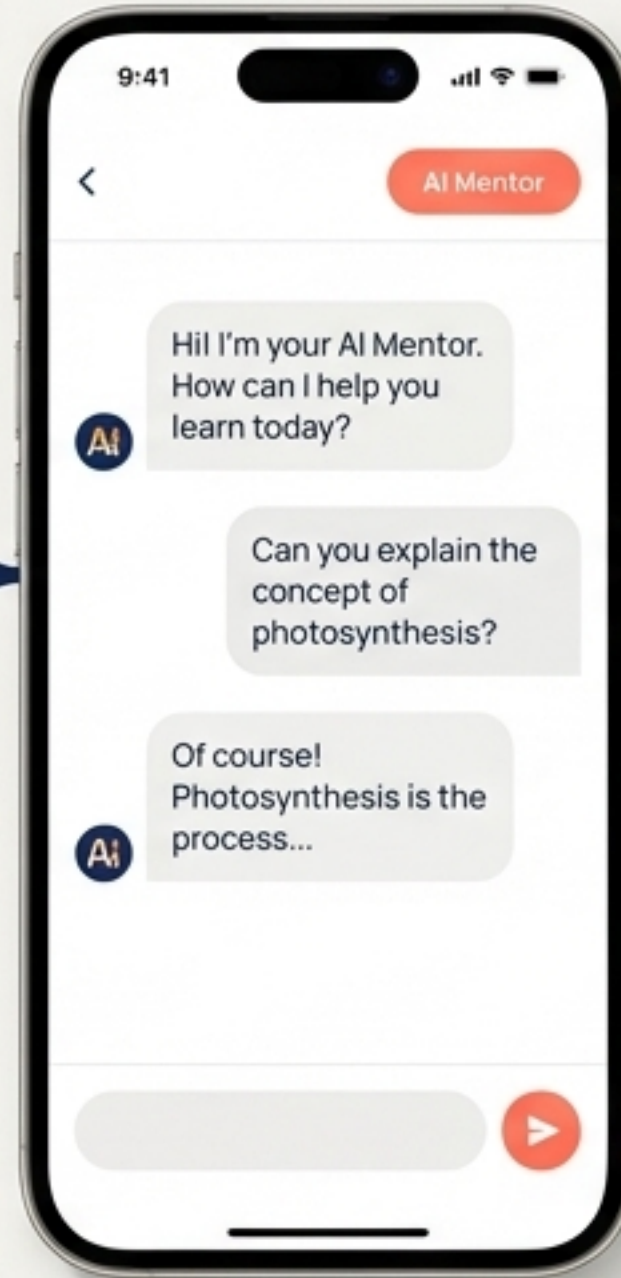

Plan Mentor

Creates personalized study plans and recommends daily tasks.

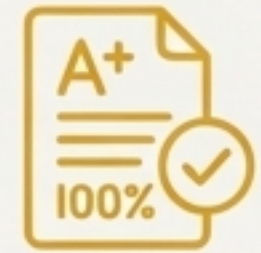

Explain Mentor:

Breaks down complex concepts with simple language and analogies.

Solve Mentor

Provides step-by-step solutions and alternative methods.

Marking Scheme Mentor

Shows how to structure answers to earn maximum marks.

Predictive Papers simulate the real exam experience.

The system automatically assembles Predictive Papers—full-length mock exams that mirror the expected blueprint of upcoming board papers by analyzing trends, weightage, and syllabus changes. For custom practice, the Mock Builder allows students to create their own papers by selecting subjects, chapters, and difficulty.

Predictive Paper: CBSE Class 12 Physics

Time Limit: 3 Hours

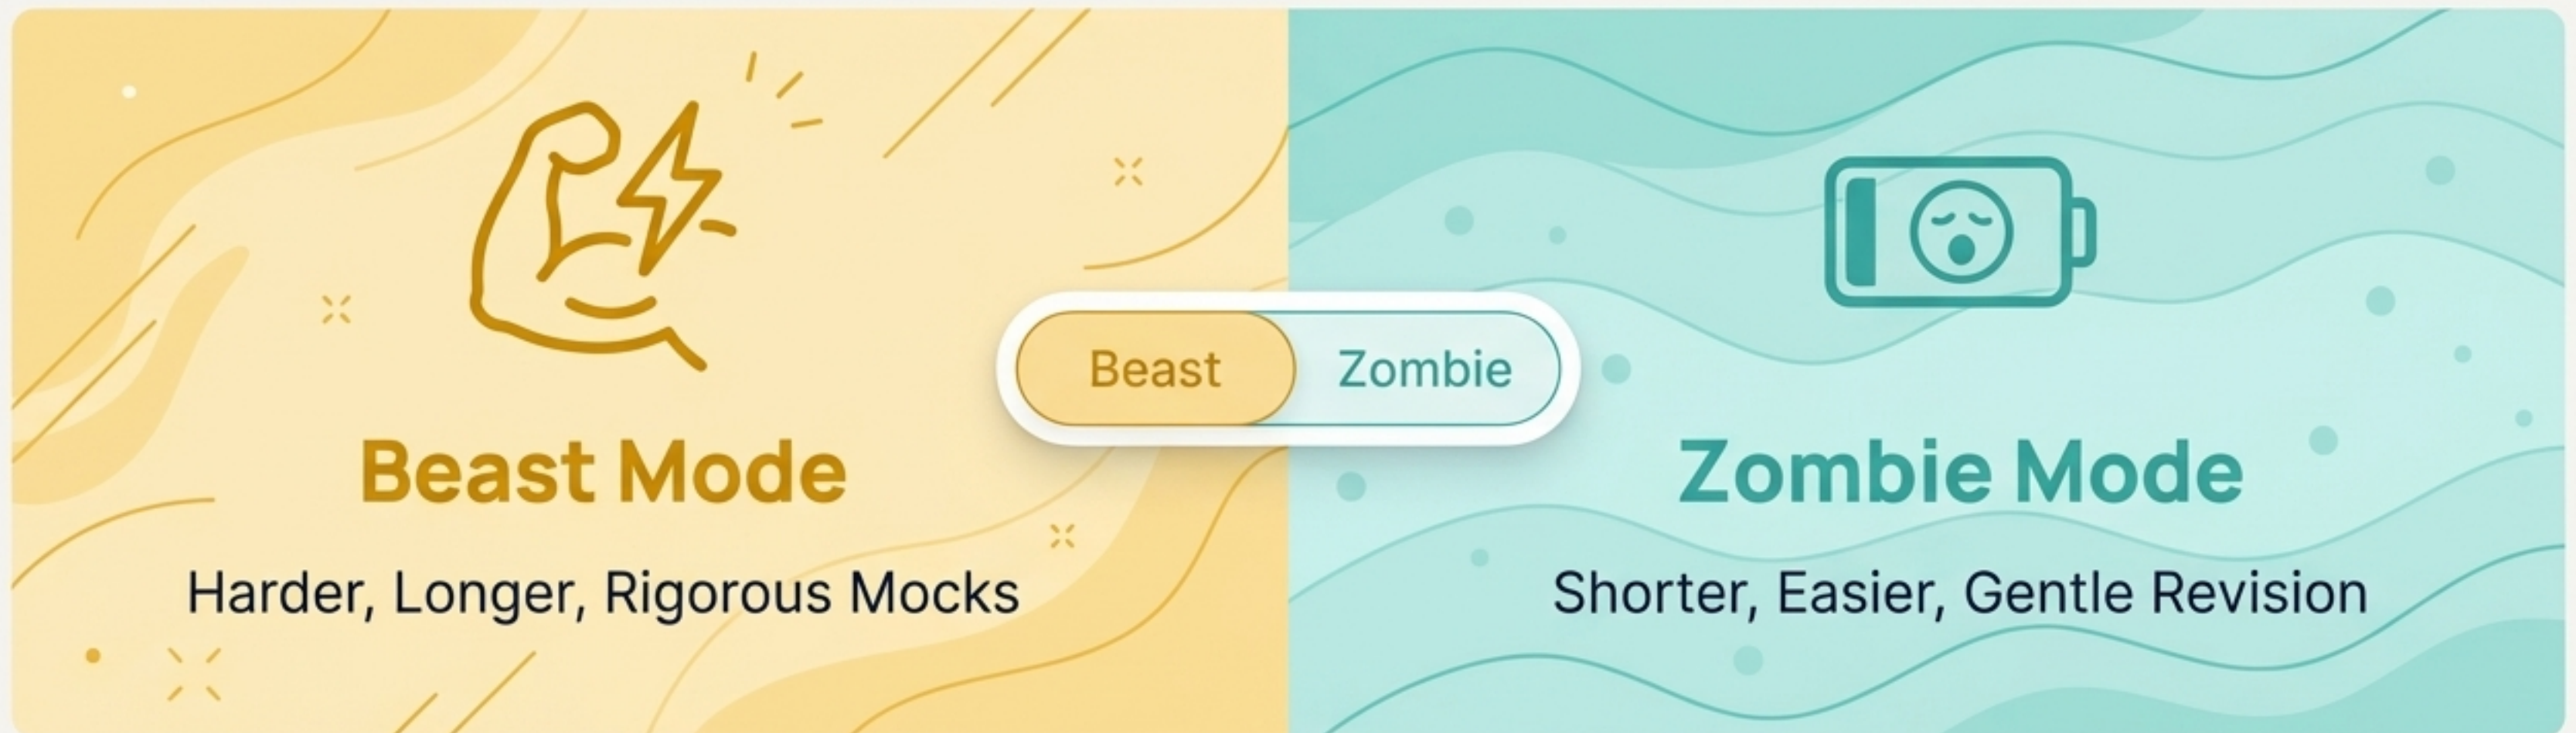

Max Marks: 70

Date Generated: October 26, 2023

The Vibe Check adapts every session to the student's energy.

LazyTopper recognizes that energy levels fluctuate.
Students can switch their "Vibe" at any time:

The Weekly Wrapped turns progress into a shareable story.

At the end of each week, students receive a personalized recap inspired by Spotify's Wrapped. This summary highlights key achievements and reinforces habits by showcasing:

Hours Studied & Active Days

Must-Crack Highlights & Accuracy Improvements

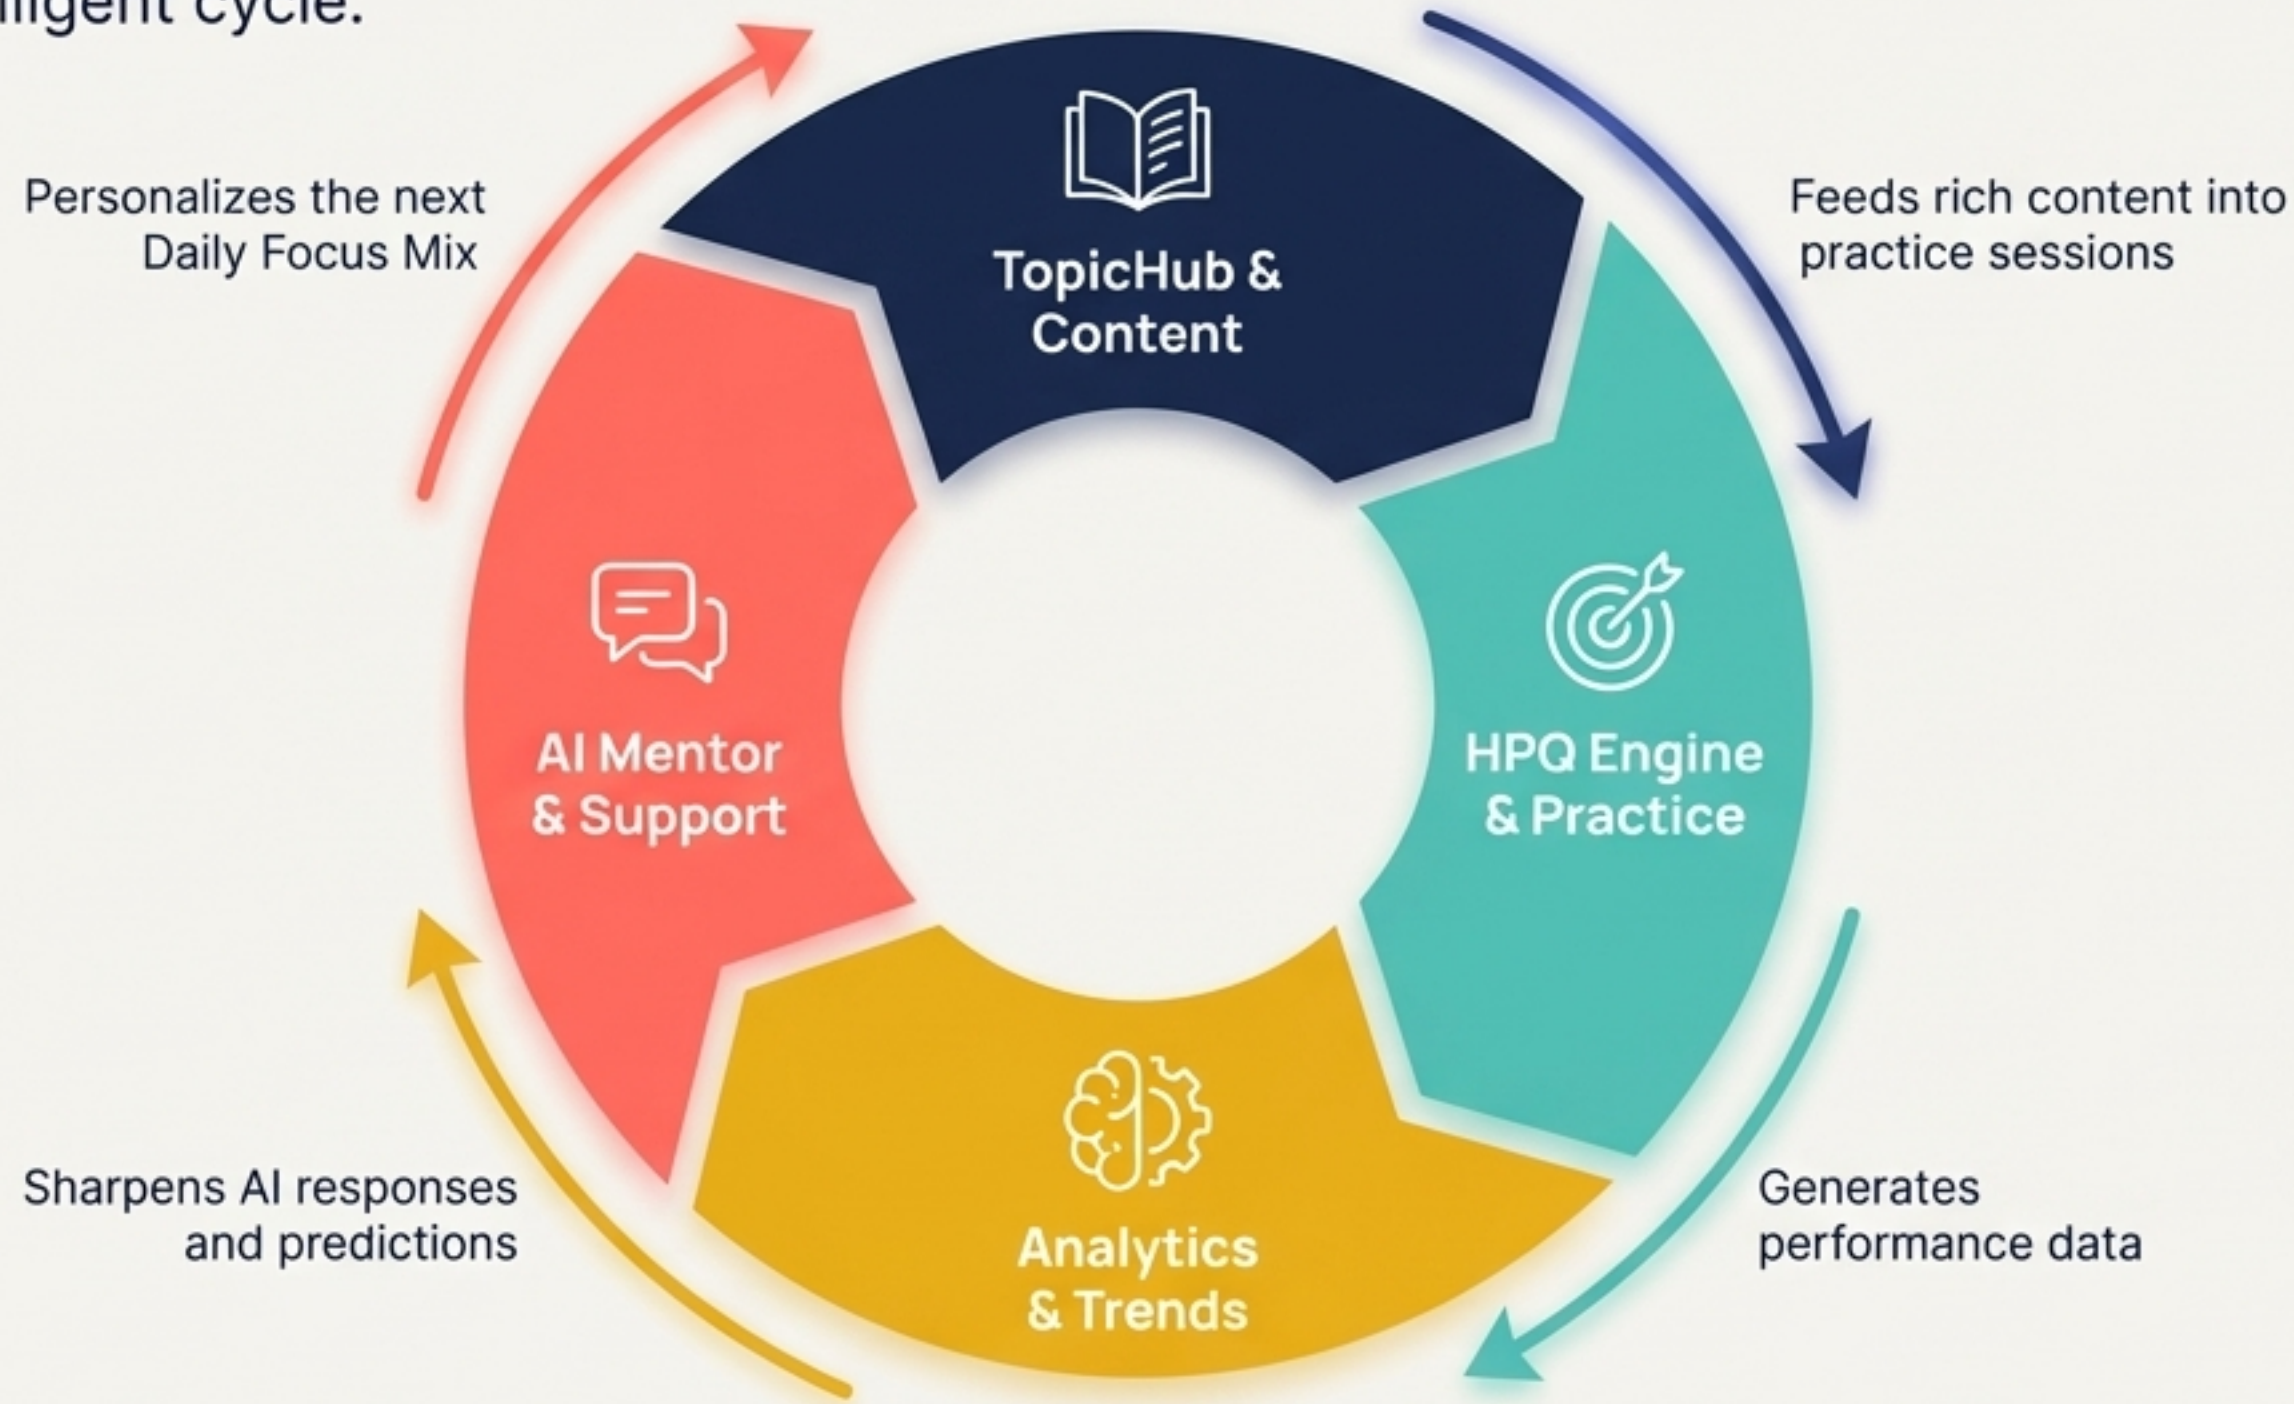

Peak Study Hour

A unified engine powers the entire experience.

The core modules work in a continuous, intelligent cycle.

The LazyTopper Advantage.

1. Personalised Preparation:

Adapts to goals, weaknesses, and mood.

2. Comprehensive Coverage:

Practise across the entire syllabus with AI-generated variants.

3. Actionable Insights:

`Match %` scores and recaps show exactly where to focus.

4. Motivation & Habit-Forming:

Daily mixes, streaks, and social recaps reduce procrastination.

5. Expert Guidance at Scale:

An on-demand AI tutor for planning, solving, and explaining.

More than an app, it's a new, smarter way to succeed.

LazyTopper integrates rich content, intelligent analytics, and conversational AI to empower students to master the CBSE curriculum efficiently. With its Gen Z-friendly interface and habit-forming features, we are fundamentally changing board exam preparation for the better.

LazyTopper. From Chore to Habit.
